

TOR for Traditional PABX Integration with IPPABX

Description of Works:

Save the Children International (SCI) is using traditional PABX System and IP PABX in Gulshan and Banani office. Infotel Technologies is existing service provider of Panasonic PABX systems. SCI will integrate all the existing Panasonic PABX with IP PABX of different office locations this vendor. After integration of the PABX it should be capable of direct dialing capacity, i.e. if any extension behind PABX can have the privilege to send its dial number through co line, extension must not have any obligation to reach outside number after PABX by pressing any digit.

Scope of Work for IPPABX and PABX Integration:

Supply of Hardware: The Infotel Technologies will supply following hardware after receiving of Purchase Order in SCI Gulshan office within 3 days. The details BOQ are:

S/N	Description of items	Qty	Rate	Total Amount
